SILENT WAR

THE UNITED STATES' SUBMARINE CAMPAIGN AGAINST IMPERIAL JAPAN 1941-1945

SEQUENCE OF PLAY

1. ***Strategic Segment***
   - 1.1. **War Event Phase** – Roll a d10. On a result of 0-3, reroll on War Events Table and implement the results. [5.0]
   - 1.2. **Torpedo Improvement Phase** – Roll d10 on Torpedo Improvement Table. If result => Ships Sunk number, move the torpedo marker one column to the right. [6.0]
   - 1.3. **ULTRA Phase** – Roll d10 on ULTRA table. Mark ULTRA Areas: add one extra ship from each cup. [7.0]
2. ***Triple 'R' Segment***
   - 2.1. **Submarine Reinforcement Phase** – Consult the Master Submarine Reinforcement List. Place and remove subs as appropriate. [8.0]
   - 2.2. **Ready Submarines Phase** (at bases and sub tenders) – Move subs in the Pier-side Box to the Ready for Sea Box. Roll for subs in the Broom Box to ready them; roll <= then Ready Number to place in Ready for Sea Box, else place in Pier-Side Box. [9.0]
   - 2.3. **Submarine Repair Phase** (at bases) – Roll <= number in Repair Box to move sub to next box (3->2->1->Broom.) [10.0]

   - 2.4. **Prep for Operations Phase –** Move all subs from "Done" section of OpArea to "Operating" . [11.0]
3. ***Operations Segment***
   - 3.1. **Patrol Movement Phase** – Subs currently deployed with their patrol side up may move to the "Operating" area of an adjacent OpArea or SMZ if currently active. [12.0] Roll for Transit Event. [19.1]
   - *3.2.* **Search and Contact Phase** –
     - *3.2.1.* Sub may skip this, remove "Spotted" marker and to straight to the Endurance Check w/ a -1 DRM.
     - *3.2.2.* Follow Search and Contact procedure on tables. [13.0] Place ships **face down** in columns on Combat Display corresponding to cup they came from. *ULTRA areas add one ship per cup.*

Patrol Game sequence begins here.

Transit Event DRM's:
- *-1 if sub is Transit side up (not a Patrol Movement)*
- *-1 if the sub is conducting* Cautious Transit *[15.24]*
- *-1 if sub is a member of a wolf pack [24.4]*
- *+1 if the sub is Spotted during WP 1 or 2*
- *+2 if entering SMZ [20.3] or in/out Sea of Japan [7.1]*
- *+1 or more for* Congregating Risk *[22.1]*

Search & Contact DRM's:
- *+1 for ULTRA areas*
- *+2 for Barrier deployed Wolf Pack*
- *-1 if sub is spotted in War Period 1 or 2*

3.3. **Combat Phase**

3.3.1. First Attack Round

3.3.1.1. Place sub in any sub box on Combat Display. – [14.11]

3.3.1.2. Reveal (flip over) number of ships = Tactical rating of sub in sub's column, or adjacent. [14.12]

3.3.1.3. If year is 1943-45, and sub has radar, "unflip" one ship and flip another. [14.12]

3.3.1.4. Pull TDC counters equal to Tactical rating, place **face down** next to **any** ship in sub's column or adjacent. [14.13]

3.3.1.5. **Targeting** - Flip TDC's and select target. Ships are targeted by assigning attack values to them. More than one may be targeted. More than one attack point may be assigned to each target. The total number of attack points assigned must not exceed the attack value of the sub. [14.14]

3.3.1.5.1. If a Combat Event Marker is revealed, resolve as per table. Reassign attack points allocated to another target. Do this only once per round. Return CE marker to cup.

3.3.1.5.2. If aircraft are revealed, reassign the attack points.

3.3.1.5.3. If a Diligent Escort is revealed, it counter-attacks immediately using the Diligent Escort row. Combat continues normally. No withdrawal allowed.

3.3.1.6. **Hit Determination** – compute the possibility of hitting the target using the following:

Hit = (Sub Attack + Torpedo Value + Super Skipper Value)

- (Target Defense + TDC + Revealed ASW - (Target Damage) + (Adjacent Col))

Note: Target Damage & Adjacent Col are 1 if true and 0 if false.

3.3.1.7. **Fire** – for those subs having a hit determination >= 0, resolve hits, flipping unrevealed, targeted ships. Roll for damage / sunk per tables.

3.3.2. Counterattack Round – Not executed if submarine could not fire. [14.16] Use Counterattack table. [14.2]

3.3.3. Withdrawal – if withdrawing, proceed to Super Skipper Determination [14.3]

3.3.4. Re-attack(s) – optional if sub has not been sunk, withdrawn or RTB. [14.4]

3.3.4.1. Sub may move to an adjacent column.

3.3.4.2. Remove TDC markers from first round.

3.3.4.3. Reveal new ships in following order: Rising Sun Battle Flag, Others.

3.3.4.4. No ships are "unflipped" during re-attacks.

3.3.4.5. Repeat attack procedure, subtracting one from every TDC marker except a -3.

3.3.5. Second Counter Attack – if sub has not withdrawn. Note counter attack is at +1.

3.3.5.1. Super Skippers may conduct a third attack if a d10 roll is less than the Super Skipper rating.

3.3.6. Super Skipper Determination – *not used in Patrol game.* [14.5]

3.3.7. Sub v Sub Combat – [14.6]

3.3.7.1. Choose one sub to participate.

3.3.7.2. Use Enemy Submarines Table to determine which sub is encountered.

3.3.7.3. Place both subs in the same column and determine combat as above.

3.3.8. Endurance Check – Use table on combat card. [14.7]

3.4. **Transit Movement Phase** – Subs that are in the Ready for Sea Box of a base, are outbound to a patrol area, or have received an RTB result move. Roll for Transit Event if applicable. Place sub in "Done" of OpArea, with either Transit or Patrol side showing for next turn. [15]

4. End Turn Segment

4.1. **Conclude Turn Phase** – Remove *spotted* markers from subs on d10 <= 6 and RTB. Check Victory Conditions. Advanced Date. [16]

4.2. **War Progress Phase** – Check War Period Transition table. If month has a number, roll d10, noting DRM's; roll => number, advance war period. [17]
